

## 2007-2060 Population Forecast (Portland-Beaverton-Vancouver, OR-WA PMSA)

# 20 and 50 year

**Regional population and employment range forecasts**

April 2009 draft

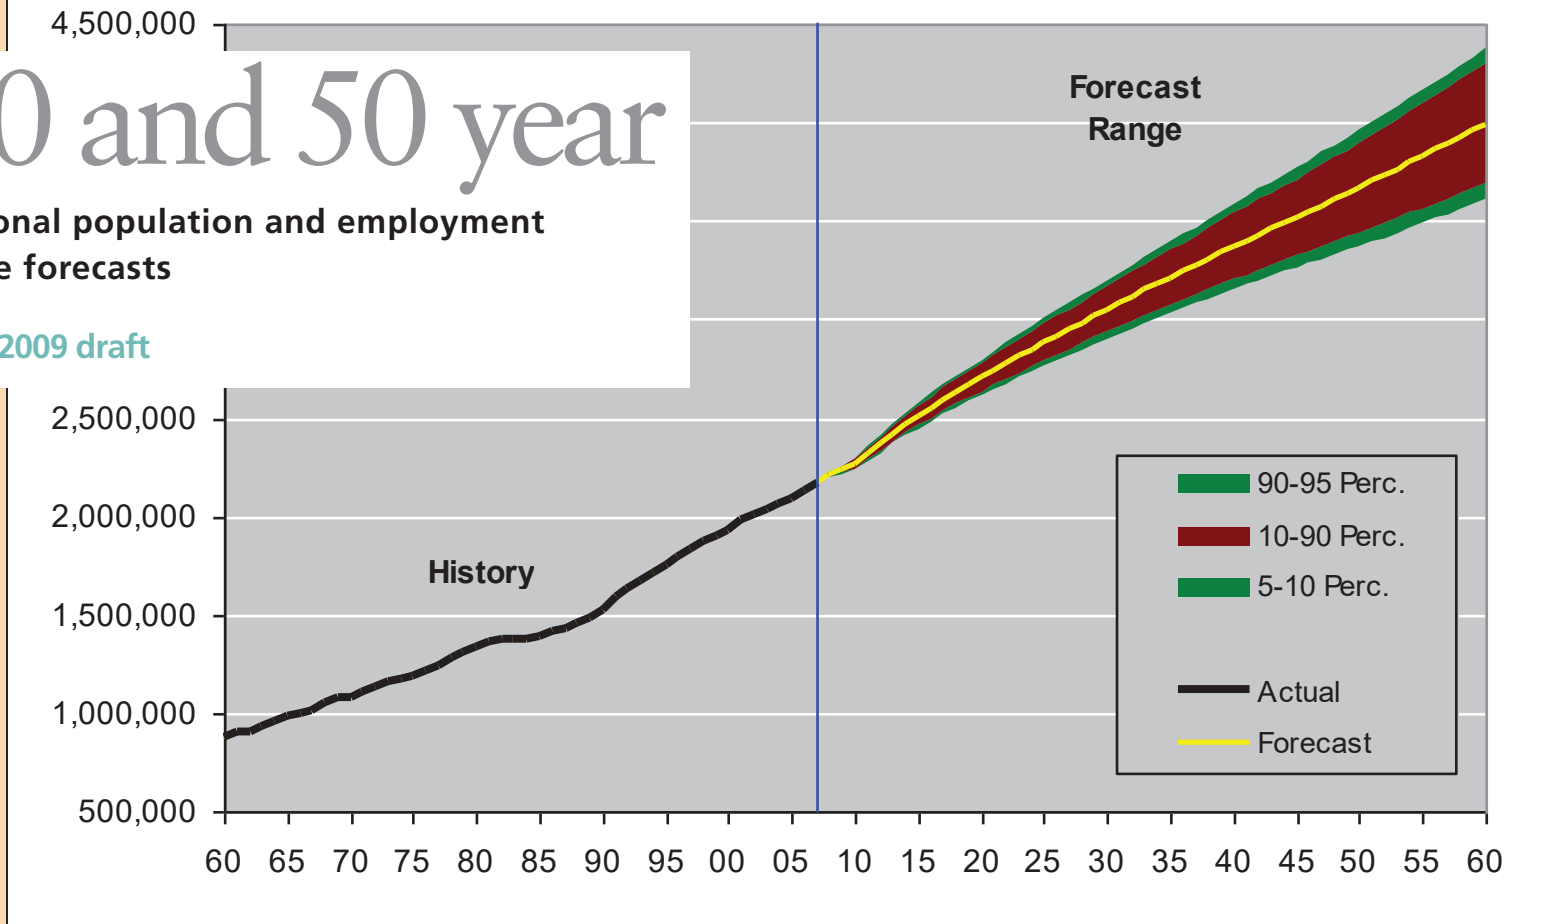

Chart Notes:

The chart above depicts the forecast range for total population in the region. The yellow line represents the “forecast mean”. The red and green wedges represents the forecast uncertainty. The green wedges represent the 5% forecast uncertainty at the “part of the tail ends of the forecast distribution”.
